## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The Information Disclosure Statement filed on 06/07/04 contains some non-patent literature documents without publication dates. Please make appropriate correction.

### ***Election/Restrictions***

2. Applicant's election of Group II in the reply filed on 06/07/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

## **REASONS FOR ALLOWANCE**

3. Claims 23-45 are allowed. The following is a statement of the examiner's reasons for allowance. The present invention relates to windows having variable transmittance light filters, and more specifically to windows including electrochromic light filters. Regarding claim 23, the prior art fails to disclose an electrochromic device distinguished by its unique characteristics comprising an electrochromic medium having a color stability  $\Delta E$  less than 10, measured in its low transmission state after being subject to continuous cycling outdoors at an angle of 5 degrees from a horizontal condition for two years outdoors, each cycle consisting of application of sufficient potential for a sufficient time such that the window reaches its low transmission state. Independent claims 26 and 29 are directed to similar electrochromic device, both of which includes the novel

Art Unit: 2873

limitations as described above. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

4. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Other Information/Remarks***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Poll et al. (U.S. Patent 6,594,067), and Poll et al. (U.S. Patent 6,671,080) discloses similar electrochromic devices.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Dinh whose telephone number is 571-272-2327. The examiner can normally be reached on M-F (9:30 AM - 6:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y Epps can be reached on 571-272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
